Education

CHITKARA UNIVERSITY, Rajpura

8.84 CGPA

Bachelor's of Engineering (B.E) | Computer Science and Engineering | 2023-27

Technical Skills

- **Programming Languages:** Java, C++, JavaScript (ES6+), HTML, CSS
- **Frameworks/Libraries:** React.js, Express.js, Tailwind CSS, Spring, Spring Boot
- **Databases:** MySQL, MongoDB, Redis
- **Concepts:** Data Structures & Algorithms, Object-oriented Programming, System Design, Operating Systems, DBMS, Computer Networks
- **Cloud & DevOps:** AWS (EC2, S3 basics), Git, GitHub, JIRA, Jenkins, CI/CD, Docker, Tomcat
- **Development Practices:** Agile (Scrum), Unit Testing (JUnit), Secure API Development, Microservice Architecture

Projects

1. **CareerConnect → Job Portal + Resume Analyzer/Builder Platform (MERN Stack) {GitHub}**
 - Developed an end-to-end job portal platform that enables recruiter job posting, candidate applications, and role-based dashboards.
 - Implemented Redis caching to reduce API response latency and improve platform performance under heavy load.
 - Built an AI-driven resume analyzer and builder that supports ATS optimization and skill-to-job matching for candidates.
 - Designed secure authentication workflows with validation and fraud-prevention checks to ensure data integrity and user trust.
2. **CloudShare → Secure Cloud File Sharing System (Java Full Stack) {GitHub}**
 - Developed a secure cloud-based file sharing system with upload/download, activity monitoring, and role-based access control.
 - Architected scalable Spring Boot REST APIs using modular microservice principles for maintainability and future expansion.
 - Integrated Razorpay payment gateway for secure credit purchases, ensuring reliable transaction validation and payment authentication.

Achievements

- Solved 550+ Data Structures & Algorithm problems in LeetCode and GFG, strengthening problem-solving skills.
- Built full-stack and backend systems that demonstrate scalable API design, modular architecture, and system design fundamentals.
- Led 3+ project teams with 95%+ execution efficiency, showing strong ownership and collaboration.
- Achieved a competitive programming rating of 1583, ranking in the top 25.74% globally among 800,000+ participants.

Work Experience

Software Development Intern (Remote SDE)

Sangam ERP Solutions Pvt. Ltd. | May 2025 – August 2025

- Developed scalable ERP modules with REST APIs, following microservice-based backend practices.
- Improved workflow reliability and transaction performance, achieving a 15% efficiency gain.
- Collaborated in Agile Scrum teams using Git, JIRA, and CI/CD pipelines.

Certifications

- Goldman Sachs – Software Engineering Simulation — Forage
- Red Hat – System Administration I & II (RH124 & RH134)
- Cisco – Junior Cybersecurity Analyst Path
- Nutanix – Hybrid Cloud Fundamentals (NHCF) Online — Nutanix University

Soft Skills

Leadership | Problem Solving | Critical Thinking | Communication | Collaboration | Adaptability | Growth Mindset
